The Oshawa clinic site (at Durham College and Ontario Tech University) is currently completing vaccination for health care providers and we expect will transition to those over 80 years of age early next week at which time we will notify health care providers and the public.

The Health Department, along with community partners, is also planning to offer mobile clinics to provide vaccine to populations and individuals who may have difficulty accessing larger clinics. More details regarding mobile clinics will be available in the coming weeks.

Additional municipal locations will be opening in the coming days and weeks depending on vaccine availability. We will provide opening and booking information as soon as it is available. You can see the list of current municipal sites at [durham.ca/covidvaccines](https://durham.ca/covidvaccines).

For clients who would like more information about the COVID-19 vaccine and the vaccine rollout in Durham, please direct them to [durham.ca/covidvaccines](https://durham.ca/covidvaccines). This website provides information on how to register for vaccines, current priority groups, vaccine clinic locations, information on COVID-19 vaccines, myths vs facts, and common questions and answers.
